Are you a w.h.o.l.e. single?

Many single men & women live with doubts and fears, often due to previous unhealthy relationships that have stripped them of self-confidence. Loss, injustice, life circumstances, and disappointments compound these insecurities and turn them into limitations. They are afraid to take another risk, thinking that it will only end in yet another failure. Others struggle with low self-esteem, wrong self-definition, negative self-talk, misplaced identity, and wrong mindsets. God wants to heal and restore these broken areas of our lives!

In this seminar author & motivational speaker Gloria Godson will outline five practical steps to wholeness in spirit, soul, and body. These are five truths that frame the portrait of an abundant life—a life that is:

1: Well 2: Healthy 3: On-Fire 4: Loving 5: Empowered
